Humans have been keeping honeybees in artificial hives since antiquity, beginning in ancient Egypt where bees were kept in pottery vessels and woven straw baskets called skeps. These skeps are what whimsical beehive motifs are often based on, and they are still made today. This is a picture of a skep with bees on it.

The history of the bee | About Bees | Bees | Guide | Omlet US

Early Honey History Honey is as old as history is itself. One of the earliest evidence of honey harvesting is on a rock painting dating back 8000 years, this one found in Valencia, Spain shows a honey seeker robbing a wild bee colony. The bees were subdued with smoke and the tree or rocks opened resulting in
