Bilateral Investment Treaties

A bilateral investment treaty (BIT) is an agreement establishing the terms and conditions for private investment by nationals and companies of one state in another state. This type of investment is called foreign direct investment (FDI). BITs are established through trade pacts. A nineteenth-century forerunner of the BIT is the friendship, commerce, and navigation treaty (FCN).

Bilateral investment treaty - Wikipedia

The U.S. bilateral investment treaty (BIT) program helps to protect private investment, to develop market-oriented policies in partner countries, and to promote U.S. exports. The BIT program's basic aims are: to protect investment abroad in countries where investor rights are not already protected through existing agreements (such as modern treaties of friendship, commerce, and navigation, or free trade agreements);

Bilateral Investment Treaties | United States Trade ...

Bilateral investment treaties (or, BITs) are international agreements establishing the terms and conditions for private investment by nationals and companies of one state in another state. The first generation of these treaties were Friendship, Commerce and Navigation Treaties (FCNs), which required the host state to treat foreign investments on the same level as investments from any other state, including in some instances treatment that was as favorable as the host nation treated its own ...

Bilateral investment treaty | Wex | US Law | LII / Legal ...

A Bilateral Investment Treaty is designed to ensure that U.S. investors receive national or most favored nation treatment (whichever is better) in the other signatory country. It protects U.S. investors against performance requirements, restrictions on transfers and arbitrary expropriation. BITs set forth procedures for the settlement of disputes.
