Ships And Shipbuilders Of A

Ships and Shipbuilders by Fred M Walker. The opening chapter is an excellent summary of the history of naval architecture, and the profiles build up the story of ship and boat building very well. I think the importance of naval architecture and shipwrightery to the history of our nation has been under rated.

List of shipbuilders and shipyards - Wikipedia

Shipbuilding is the construction of ships and other floating vessels. It normally takes place in a specialized facility known as a shipyard. Shipbuilders, also called shipwrights, follow a specialized occupation that traces its roots to before recorded history. Shipbuilding and ship repairs, both commercial and military, are referred to as "naval engineering". The construction of boats is a similar activity called boat building. The dismantling of ships is called ship breaking.

Shipbuilding - Wikipedia

SCA members constitute the shipyard industrial base that builds, repairs, maintains and modernizes U.S. Navy ships and craft, U.S. Coast Guard vessels of all sizes, as well as vessels for other U.S. government agencies. In addition, SCA members build, repair and service America's fleet of commercial vessels.
