Stereophile Guide To Home Theater

The last few years have witnessed a revolution in how we watch movies at home. Likewise, the Internet has forever changed the way we track down information around the world. Because SGHT covers the former, it only makes sense that to do it well, we should use the latter. And so the curtain is going up, and we now welcome you to the official Stereophile Guide to Home Theater

Stereophile Guide to Home Theater Review of the ATI AT1505 Amp

Editor's Note: 24 years ago, in January 1995, we published the first issue of Stereophile Guide to Home Theater, a sister publication intended to appeal to the the growing number of home-theater enthusiasts. Stereophile's founder, the late J. Gordon Holt, had gotten early into the idea of accompanying movies with high-quality sound, and when I first visited his New Mexico home in January 1986, his system included an Advent NTSC-format video projector.

The No.36 picked up the slack without missing a beat. I've used it not only in the system listed above, but also as the primary signal source in every review I've done in the past several months—both for Stereophile and for the listening-room portions of my reviews for the Stereophile Guide to Home Theater.

Mark Levinson No.36 D/A converter | Stereophile.com

The most demanding test of a home-theater audio component is to use it in a high-end 2- channel stereo system. To begin with, this is an audio-only test, so the listener's attention is focused on the sound, without competition from video. There are no surround effects, which means that any deficiencies in basic
