WORLD INVESTMENT REPORT2017 - UNCTAD

Global flows are forecast to increase to almost \$1.8 trillion in 2017, continuing to \$1.85 trillion in 2018 – still below the 2007 peak. Policy uncertainty and geopolitical risks could hamper the recovery, and tax policy changes could significantly affect cross-border investment. [Read More.](#)

Government support and forms of public-private partnerships will be needed for universal connectivity, including in thinly populated and low-income areas. ...

World Investment Report | Chapter 4 - Investment and The ...

Despite this, developing Asia remained the second largest FDI recipient in the world, and FDI inflows are expected to increase again by 15 per cent in 2017, according to UNCTAD. Conversely, FDI outflows from developing Asia rose by seven per cent, mainly because of FDI outflows from China.

UNCTAD: World Investment Report 2017 - Asia House

This number is lower than in the preceding year but higher than the 10-year average of 49 cases per year (2006–2015). As of 1 January 2017, the total number of publicly known claims had reached 767. So far, 109 countries have been respondents to one or more known ISDS claims.

World Investment Report | Chapter 3 - Investment Policy Trends

Global flows of foreign direct investment (FDI) will be under severe pressure this year as a result of the COVID-19 pandemic. These vital resources are expected to fall sharply from 2019 levels of \$1.5 trillion, dropping well below the trough reached during the global financial crisis and undoing the

already lackluster growth in international investment over the past decade.
